RE: FINAL ISSUANCE NPDES/SDS PERMIT MN 0045489
Reilly Tar Site Ground Water Treatment System
St. Louis Park, Minnesota

Dear Mr. Anderson:

We are enclosing the final issued National Pollutant Discharge Elimination System (NPDES)/State Disposal System (SDS) water quality permit for your facility. This reissued permit supersedes the previous NPDES/SDS permit that was issued on July 8, 1996.

Discharge Monitoring Report forms to be used in reporting the required monitoring and analyses will be sent to you within forty-five (45) days of permit issuance. Please contact us if you have not received these report forms at least one week before your first required report submittal date.

Compliance with the terms and conditions of this permit is required as of the date of issuance.

If you have any questions concerning the final permit or related materials, please contact Stephanie Christiansen at (651) 297-7153.

Sincerely,

Gary L. Eddy, Supervisor
Waste Management & Wastewater Sector Unit
Regular Facilities Section
Metro District
